Help not working
Posted by pbhattarai - 2008/04/08 15:16

_____

Hi,

I recently installed AGWA for ArcGIS 9.2 using AGWA2 Setup 9.2 file.

The help button in too dialog box doesn't work. It says, "Could not locate AGWA2.chm"

Thanks,

Prajwol

_____

We are working on compiling the CHM version of the help, but until then it won't be available via the help buttons. In the meantime, you'll have to use the PDF version of the user manual.

Sorry for the inconvenience.
